

First Class Interior and Exterior Protection Featuring Ceramic Technology

Offered by Advantage Product Pipeline, LLC

Mercedes-Benz Financial Services

State of the Art Ceramic Technology—Inside and Out.

Mercedes-Benz Financial Services offers First Class Interior and Exterior Protection with DuPont™ protective ceramic coatings. These protective coatings are applied to safeguard your vehicle's leather, carpet, and paint against environmental and man-made hazards while maintaining your vehicle's overall appearance. Take a look at the advantages:

Ceramic Interior Protection

Leather Surfaces — Though tough in their own right, leather surfaces are still vulnerable to soiling and staining. DuPont™ Interior Protection helps to prevent fading, discoloration and cracking of the interior finish by acting as a barrier to help keep mishaps from staining the surface of your leather.¹

Carpet Surfaces — Carpets are exposed to spills, splatters, and everyday mishaps. DuPont™ Interior Protection will help provide protection against staining, high temperatures, and discoloration. It is designed to make it easier to clean up spills and splatters, and extends the life of your vehicle's brand new interior.¹

¹Coverage does not guarantee the leather, carpet, paint, alloy wheel or exterior headlight will, in all cases, be restored to its original condition. Not all types of damage are covered; for example, damage caused by certain common household substances is not covered. Coverage does not apply to theft, vandalism, fire, collision, rust, chipping or flaking paint, rips, tears, burns, punctures, damage due to corrosive materials, headliners or convertible tops. For stains caused by dyes or ink, remedy will be cleaning and professional redyeing of affected area. Remedy for exterior headlight is professional reconditioning only.

Ceramic Exterior Protection

Painted Surfaces — Oxidation from sun damage, bird droppings, water spotting, insects and tree sap are just a few of the adverse effects that can damage your exterior vehicle finish.

DuPont™ Exterior Protection helps to maintain the beautiful high-gloss finish of your vehicle's exterior. Once applied, insects or debris that have landed on your vehicle are easily removed. Additionally, your new alloy wheels will be protected from brake dust penetration and your exterior headlights from yellowing or clouding.¹

More coverage for your protection.

In addition to leather, carpet and paint protection, you'll get the following added benefits:

- 7-Year Limited Product Warranty on new vehicles and pre-owned vehicles²
- No need for re-application
- Transferable to a subsequent owner³
